NABL Advocacy Toolkit

When NABL members work in tandem with our Governmental Affairs staff, we can have a greater impact on issues NABL cares about. Read on to learn how you can help NABL make a difference.

National Association of Bond Lawyers
Resources

NABL is a long-time thought leader in the municipal bonds industry. The NABL website contains useful one-pagers and templates for letters to Congress and the administration that will help in your advocacy efforts.

Background pieces are helpful to briefly explain an issue. NABL has created the following for your use:

- About NABL
- Tax-Exempt Private Activity Bonds
- Small Borrower Bank-Qualified Tax-Exempt Obligations
- Advance Refunding
- Bonds and Infrastructure

Letters to Congress and the Administration are also important advocacy tools. Letters NABL sent in 2019 can be found below.

- Statement for the Record to the Ways & Means Committee
- Letter to Congressional leadership

You can also find past letters on tax reform issues sent by industry participants, here.

If you're interested in writing your member of Congress about the importance of tax-exempt municipal bonds to infrastructure, you can find a template for your use here. Feel free to use any of NABL's background documents and resources in your outreach.
